      1.2.5 The test case passed.

1.3 Test Case: Admin User

      1.3.1 Type: Create Asset

      1.3.2 Parameters: Type -> computer, Set Computer name.

      1.3.3 Expected Output: Asset Added

      1.3.4 Results: Asset Added

      1.3.5 The test case passed.

1.4 Test Case: Admin User

      1.4.1 Type: Edit Asset

      1.4.2 Parameters: Change non-nullable field to empty

      1.4.3 Expected Output: error

      1.4.4 Results: Error (Prevented by Required fields)

      1.4.5 The test case passed.

1.5 Test Case: Admin User

      1.5.1 Type: Edit Asset

      1.5.2 Parameters: Change nullable field to empty

      1.5.3 Expected Output: Successful Update

      1.5.4 Results: Successful Update

      1.5.5 The test case passed.

1.6 Test Case 6:

      1.6.1 Type: Edit Asset

      1.6.2 Parameters: Change field text to too long

      1.6.3 Expected Output: Error

      1.6.4 Results: Error (Prevented by Maxlength input attribute)

      1.6.5 The test case passed.

1.7 Test Case 7:

1.7.1 Type: Edit Asset

1.7.2 Parameters: Change valid text to different valid text

1.7.3 Expected Output: Successful Update

1.7.4 Results: Successful Update

1.7.5 The test case passed.

1.8 Test Case 8:

1.8.1 Type: Retire Asset

1.8.2 Parameters: Retire Asset

1.8.3 Expected Output: Successful Update

1.8.4 Results:Successful Update

1.8.5 The test case passed.

1.9 Test Case 9:

1.9.1 Type: Retire Asset

1.9.2 Parameters: Change retired asset to retired.

1.9.3 Expected Output: Successful Update

1.9.4 Results: Successful Update

1.9.5 The test case passed.

1.10 Test Case:

1.10.1 Type: Add User

1.10.2 Parameters: Add Empty User

1.10.3 Expected Output: Error

1.10.4 Results: Error (Prevented by Required Fields)

1.10.5 The test case passed.

1.11 Test Case 11:

1.11.1 Type: Add user

1.11.2 Parameters: Add Valid User

1.11.3 Expected Output: Successfully Added user

1.11.4 Results: Successfully Added user

1.11.5 The test case passed.

1.12 Test Case 12:

1.12.1 Type: Add User

1.12.2 Parameters: Add Valid user with mismatch passwords

1.12.3 Expected Output: Error

1.12.4 Results Error (Prevented by PHP password check)

1.12.5 The test case passed.

1.13 Test Case 13:

1.13.1 Type: Edit Users

1.13.2 Parameters: Change Valid Password to Empty

1.13.3 Expected Output: Error

1.13.4 Results: Error (Prevented by Required Field)

1.13.5 The test case passed.

1.14 Test Case 14:

    1.14.1 Type: Edit Users

    1.14.2 Parameters: Change valid password to Mismatch Passwords

    1.14.3 Expected Outputs: Error

    1.14.4 Results: Errors (Prevented by PHP Password check)

    1.14.5 The test case passed.

1.15 Test Case 15:

    1.15.1 Type: Edit Users

    1.15.2 Parameters: Change Valid password to different valid password

    1.15.3 Expected Output: Successfully updates password

    1.15.4 Results: Successfully updates password

    1.15.5 The test case passed.

1.16 Test Case 16:

    1.16.1 Type: Delete User

    1.16.2 Parameters: Delete Valid Account

    1.16.3 Expected Output: Successfully Deleted User

    1.16.4 Results: Successfully Deleted User

    1.16.5 The test case passed

1.17 Test Case 17:

    1.17.1 Type: View Assets

    1.17.2 Parameters: View Assets as both General user and Admin user;

    1.17.3 Expected Output: Displays Table

    1.17.4 Results: Displays Table

    1.17.5 The test case passed.
